

**COMPLIANCE + PERFORMANCE**

# PLASTIC PALLET MANUFACTURER

## STACKABLE PALLETS

### AVIENT SOLUTION

Cesa™ Flame Retardant Additives – F-Series

### WHY AVIENT?

- Achieved all flame rating requirements
- Provided support with qualification process and testing requirements, saving time and cost
- Demonstrated ongoing support with A2LA test labs, sampling, and lot-to-lot- consistency with exacting performance
- Developed a non-halogen flame retardant additive highly miscible in a wide range of olefin melt flows (MFIs)

### KEY REQUIREMENTS

- Offer internal UL testing using a cone calorimeter
- Support UL 2335 and FM 4998 compliance
- Supply an optimized additive concentrate with efficient use rates, economics, and performance
- Utilize a more sustainable flame-retardant technology
- Achieve efficacy in a broad range of olefinic resins
